### **Third Quarter Project: Collage**

**Due:** Wednesday April 8<sup>th</sup>, 2009

Email your image to me at pan@edison-albright.com. Late projects will be reduced by one numeric grade per day. Late projects will not be accepted after Friday April 10<sup>th</sup>, 2009.

I will send you a reply as soon as I have received your email. If you do not receive a reply within one day, find me at school or send your project again as soon as possible.

#### **Goal**

Using the Photoshop skills you learned this quarter, create an original collage about an emotion of your choice. You should:

- Choose an emotion that you want to show.
- Choose a color to tie your collage together visually.
- Include photographs and other images that show your emotion.
- Include words that express your emotion – maybe single words, lines from a song, a poem you have written...

#### **Grading**

To receive a grade of 1, your final image must:

1. Have one clear emotional theme and one main color
2. Include parts of at least 3 different images
3. Include text
4. Be on time!

#### **Tips**

You only have two class periods to complete this project – that's plenty of time, if you use it. If you need more time, email me and I will arrange to open the lab during a free period, 0 hour, or after school.

Photoshop is powerful software. If you want to do something special, and you don't know how, just ask and we can figure it out.
